Had trouble filling the chairs this weekend. We averaged 3.4 operators with the 222 seat empty more than half the contest and one operator at 432 and up.

6 was just good enough up here to be interesting, but no huge openings. Higher bands had moments but flat for the most part.

K0SM was up for the whole deal, 2 meters till midnite, then WSJT on 3 stations till morning. I think he's still sleeping (Tuesday).
