Wow. Conditions were challenging....the 'A' index ate us up and affected 15M the most up here in WNY. Our 2nd M/M in CQWW CW and we were down on all bands EXCEPT 40 where we picked up > 200 Qs from last year. (we were down 550 Qs on 15!) We put in a lot of work to upgrade 40 and it appears to be working much better now.

Lots of work to do..... But we all had our usual great time and terrific jobs by the whole crew here. The 40M 2nd filled in on the other bands a bit when we could.

A special note: N2PP has handled 20 meters pretty much by himself in about 6 straight CW M/M here and continues to improve our 20 meter position every time out.

Congrats to all the M/M teams that make this so much fun and put in all the effort to post big scores. We really enjoy the on-line scoring from GETSCORES.ORG. N1MM logger continues to provide excellent stability for our computers and network.
