First and foremost, we sincerely apologize to all those that tried to work us on 15 meters. It took us until Sunday midday to finally isolate a cause for our performance there and then fix it....but it was way, way too late.

I will be replaying this one in my mind for years! The rest of the station performed nearly flawlessly, as did every one of our fine crew we had in this weekend. Conditions were pretty fair all the way around and we were encouraged by our improved 40 meter performance, and all the other station work that went in this year.

Congrats to all the M/M who put in similar efforts to try to play well in this fantastic obsessio..... errrrr, hobby of ours.
