We brought in some old friends, and some new friends on this one, and assembled a great crew. K2UA, N2PP, K8FC and K0SM were only available part time, so 20 and 40 were by committee, but what a committee it was! AND..I believe 7 of these guys are under 40!

160 N2CU, WB2ABD (W2FU a lil)
80 K2AXX, N2MG
40 N2PP, K0SM, W2RE, K2UA
20 N2ZN, K2CYE, W2RE, K8FC
15 K2TJ, NW2K
10 K2SSS, WW2DX

K3 x 12 + N1MM

Clearly, our best result to date and the crew is what made it so. Very few problems to deal with once we got the coffee pot off the same breaker as the low band stations! 160 meters was pretty brutal up here (and elsewhere too it seems) where the absorption made it very difficult to work folks. Probably the worst 160 conditions we've encountered since we started doing M/M.

Congrats to W3LPL and K3LR for huge efforts and scores again in this one.
